This application is in condition for allowance except for the following formal matters:

Claims 1-6 are objected to as containing numerous instances of poor wording. For instance, in claim 1, lines 4-5, "a state of being inserted into a through hole" should apparently be – a through hole of the shield case --; on line 17, "electric circuit" should apparently be – metal bracket --; it is unclear what the "electric circuit" is. Each of the claims must be reviewed and corrected. Attorney is invited to call the examiner regarding same.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record discloses or teaches the combination of a metal shield case having a first housing and terminal in a through hole of the shield case, a metal bracket fixed to the shield case, a coaxial wire connected to both a second terminal in a second housing and to the metal bracket, the first and second terminals being fitted (mated) to each other in the through hole.
